The History of The Y's Men

It started in 1977 when a few elderly men found wandering around downtown Westport were lured into the Y to share coffee and donuts.

As the group expanded it became prized as a prime captive audience for speakers of every description.

Its many special interest off-shoots have allowed members to experience heights never realized in their early years.

The Y's Men are still active after 28 years - but the coffee and donuts remain the glue that holds it all together.
